Off Court Self- Evaluation

Prior to the start of each weekend circle the number, which you feel best describes your understanding of the descriptor. Then after the weekend course, re-evaluate yourself based of what you have learned.

The purpose of this is to help you establish your knowledge base on an ongoing basis and measure the improvement in overall understanding of the Club Professional 2 competencies.

1. Poor

2. Fair

3. Good

4. Very Good

5. Excellent

Please rate your understanding of the following:

Why is it important to create a budget?
What are the basics of creating a budget, how can the CP2 use a budget to benefit their profitability?
There are times when you will be asked by the club to either increase the profitabilit of a program or reduce the cost for greater participation in a program. What are three components that are used to accomplish this?

	sed on your response from the above question, provide the solution to the llowing:
	You are running a "Doubles Practice" for a group of 8 participants where there is one hour of drilling, followed by Pro supervised 30 minutes of play.
a.	Provide 3 different ways to increase profits for the club/pro? Show your calculations. With each, what are the disadvantages/concerns with making the change?
b.	Provide 3 different ways of reducing the cost of the program to the participants. Show your calculations. With each, what are the disadvantages/concerns with making the change?

SECTION 4: PLANNING

- 1. Design a Drill which takes into account the following considerations:
 - 6 players (3.5 rating)
 - competitive game situation drill (players compete against one another)
 - focus: players practice receiving high arching balls on their backhand in a competitive situation (at least on the first shot, then point can open up)

A. Be sure to include all six organizational elements as well as the basic rules for the drill.
B. What is the goal of the drill for: 1. The player receiving the high ball on the backhand 2. The player sending the moonball

C.	Provide 3 ways to adjust the for each variation.	he goal/scoring to provide variation and explain your rational

3. A group of 2.5 Level players have been introduced to a slice backhand. Design a sequence of 3 drills using the concept of "learn-move-compete" to provide the students volume on new skill. Use the organizational elements of feeding and reception to progressively provide volume on the skill. For each drill, include the other organizational elements as well. i. Learn ii. Move iii. Compete

4.	From the "Teaching Players to Play and Improve their Tennis" document, provide a series and/or progression of tasks (minimum of 4) for the following topics and describe for each task (outcome) what you will focus on (process) in order to build up to the final task/skill. Assume a 3.0 level of play.

3.	For the following tasks, design 2 drills: one closed and one open (which requires decision-making). Be sure to include all organizational elements. - closed: explain why you chose this closed situation amongst other possibilities and what will you focus on regarding the outcome and the process - open: explain what element (ball received, your positioning, opponents positioning) you will use to determine why one decision may be more relevant then another decision. Explain your rationale why you chose this element (frequent, important, easy) A. Approach Shot

6. Using the following chart, use the 4 variables to define a specific situation and task to be trained. Use a combination of variables and then design a drill for 4 players, which include the 6 organizational elements. Complete 4 different drills using different combination of variables. Start each new drill with the main focus of an element of a different column (column heading).

Be sure to include <u>rationale</u> for why drills are important for playing against the particular gamestyle (4 players, 3.5 level). For each, explain the <u>situation</u> and why you chose it and explain the <u>response</u> and why you chose it?
