Message: “From the first day we started on this tennis journey, I explained my goal was to compete at the highest level possible. Not an easy task for an adult player but you have always genuinely respected and supported my aspirations. As you said many times: “I cannot wait to see how far we can take you on this journey”. And what a journey it has already been! Your extensive tennis knowledge has allowed me to develop a solid foundation of skills that have increased my confidence as a player. When I doubt myself, your positivity and enthusiasm remind me to keep pushing forward. If I struggle with a skill, you creatively find another way to lead me to improve. Most importantly, you take the time, on and off the court, to listen to my concerns and consistently offer feedback in a constructive and reflective manner. The progress I have made in a short period of time speaks volumes of the positive impacts you have already made on my tennis development. I look forward to what my tennis future holds and am grateful to have the opportunity to evolve with you as my Coach. ”

Message: “Mike - a MILLION thank-yous for being the BEST coach! As a 46-year-old player who really only got serious about tennis in the past 4 years, I can't thank you enough for having me helped improve my game so much. From being the pancake-server who'd never played doubles, barely played competitively, and had limited shots in my repertoire, to someone who has made top 30 (so far!) in the open ladder, made it to the Kew women's singles finals, and made the doubles team for the past 2 years, I credit so much of my progress to you. Thank you also for being a friend off the court, and someone I can always count on to give me a pep talk or cheer me on. Big love for Mike Kosowski! ”

Message: “Coach Rene is incredibly talented at grabbing his students' attention and focusing it where it needs to be. Our son Theodore is quite young (5) but has been working with Rene for over a year now, and so many times my mind is blown watching them interact. Rene catches Theodore's attention so easily and works with how Theodore is to produce sustained focus and hard work. And already our son can play tennis! He can hold a sustained rally with the red balls, and get around the court well, and hit good shots off both sides. Well done Rene! Thanks for being such a great coach. We're looking forward to more tennis time with you :)”
