

TP/RANKING STATUS OF REQUESTED FIXES/IMPROVEMENTS

Updated: February 10, 2015

Current Requests/Priorities:

1. Draw Creation
 - a. Pull Back: When you have a draw size of 17 (or 18), the one (or two) pull-backs always seem to have the winner play against the first (and second) seed. Same with a third pull-back winner plays the third seed and so on. In Canada, the rule is that the pull-backs be randomly placed but evenly distributed (so a single pull-back would be anywhere, two would have one pull-back in the top and one in the bottom and four would have one pull-back in each quarter).
2. Mandatory Registration Fields
 - a. All junior members must have at least one parent's name and phone number listed during registration.
 - b. Phone numbers must be formatted as "ddd-ddd-dddd"
3. Banner Bug
 - a. Banners are not showing up in Firefox but they are in Google Chrome and Internet Explorer
4. Auto-Redirect
 - a. Mobile users who visit the tc.tournamentsoftware.com website should be greeted with a pop-up asking if they would like to download the mobile app.
5. Default Status
 - a. We are looking to add "Default" as a match status option.
 - b. Players who do not play their first round (default, w/o, withdrawl) before tournament starts, we want to treat the match as a bye for the winner, thus NO POINTS should be awarded to the loser.
6. Rankings Display
 - a. Highlight the point awards for those tournaments which contribute to a player's rankings. (Top 5 for Juniors, top 3 for Adults and Open).
 - b. Align the point awards on the decimal. Looking at an individual's point awards is often confusing because the point awards show different numbers of decimal places. Three decimal places should be sufficient.
7. Various Wording and Translation Changes
8. Search Results
 - a. Tournament search results list. The results list should include the Type of tournament (National/Provincial/Regional etc.) Perhaps before or after the date.

9. Activation Bug
 - a. The activation notification goes to the e-mail address in a player's profile, not the e-mail address used for activation notices. Subsequent account related notifications go to the account e-mail, not the person's profile e-mail. Activation notification should go to the account e-mail address.

Completed Items to Date:

1. Tournament Search Bar
 - a. Category selector customized for Canadian needs
 - b. Event Level Selector customized for Canadian needs
 - c. Added Provincial Filter
2. Membership
 - a. Players only need to be validated when they register for the first time (in Quebec and Ontario). There is no need to validate members each year they renew any more.
 - b. Improved the Baseline to VR membership transition. Improvements in clarity were made on the "found existing person" pop up box.
 - c. PTA's now have access to the membership reports in their admin pages.
 - d. Information typed in the registration process now overwrites existing baseline membership data while before baseline information would replace previously input information.
 - e. Cash & Cheque payment options added to registration, with specific instructions for each PTA.
3. Rankings
 - a. We can now manually award points when necessary.
 - b. You can now sort the rankings by Year of Birth.
 - c. Playing up an age category without a win now results in 0 points awarded as intended (initially this was not working properly).
 - d. Rogers Rankings banner added to Rankings pages
 - e. Points are now awarded properly for top 4 consolation finishes.
4. Tournament Planner
 - a. Importing rankings to event rosters now works
 - b. You can pre-assign a draw to a location for easier scheduling
 - c. Entry Fees appear earlier in the sign-up process now
5. Phone App
 - a. Match locations are now shown in draws when they have been specified.

6. Security

- a. HTTPS is now fully functional allowing for a more secure site.
